EDUCATION

UNIVERSITY OF CALIFORNIA, LOS ANGELES

Bachelor of Science
Major in Cognitive Science

Los Angeles, CA
Expected June 2027

WORK EXPERIENCE

UCLA RESIDENTIAL LIFE LEARNING CENTERS

Social Media & Design Specialist

Los Angeles, CA
Sept 2025 – Present

- Maintain and scale brand systems across platforms serving 13,000+ residents, ensuring consistency, accessibility, and usability.
- Increase engagement by 25.6% across an audience of 350K through content planning, audience-focused messaging, and consistent posting.
- Design 1–2 promotional assets each week for digital and print campaigns while maintaining brand consistency.

ACM-W TECH FELLOWSHIP

Tech Fellow

Los Angeles, CA
Jan 2026 – May 2026

- Collaborated with a cross-functional team to build an AI-powered mock interview platform for college students.
- Conducted interviews and surveys with 20+ users to understand interview preparation habits, challenges, and needs.
- Created wireframes and user flow concepts based on research findings to support product testing.
- Presented research findings and design recommendations to ACM committee members through pitch decks and presentations.

OKIVERY

Product Marketing Intern

Seoul, South Korea
July 2025 – Aug 2025

- Supported a B2C grocery delivery platform serving US military families in South Korea, helping bridge campaign messaging and product experience across two distinct markets.
- Researched local delivery services and U.S. consumer expectations to identify opportunities for product positioning and marketing.
- Shared research findings with the engineering team and provided recommendations for improving user flows and customer touchpoints.

UNIVERSITY PROJECTS

REVIVE (*Human-Computer Interaction Project*)

Sept 2025 - Dec 2025

- Conducted 20+ semi-structured user interviews and 50+ survey responses to understand motivations and barriers in furniture refurbishing among college students and young adults.
- Led think-aloud studies, cognitive walkthroughs, and paper-prototype evaluations to uncover usability breakdowns.
- Synthesized qualitative and quantitative data into user personas, journey maps, and a clear problem statement.
- Designed and iterated low-fidelity to high-fidelity prototypes in Figma; integrate user feedback from multiple testing rounds to refine tasks flow.

ADDITIONAL

Skills: Qualitative & Quantitative Research, Microsoft Office (Word, Excel, Powerpoint), Google Workspace, Figma, Adobe Illustrator, Procreate

Interests: Consumer technology, travel & experiences, community-centered design
